NEWS BRIEFS.

Occurrences of Interest Over the State During the Week.

Julia Trabue, a negro woman, who killed her lover, was sentenced to be hanged, in Louisville, on Nov. 15th.

The safe of the Crider Milling Company at Crider, Caldwell county, was dynamited a few nights ago. The office was wrecked and a considerable sum of money was secured.

Judge S. B. Vance, of Henderson died Monday. He was one of the leading jurists of this State and a prominent Democrat. He was aged 76 years and had been ill for some months past.

Charles F. Grainger was nominated for Mayor of Louisville in the Democratic primary last week defeating T. L. Jefferson by about 5,000 majority. About 14,000 votes were polled in the election. The election was quiet, no trouble of any kind reported.

Mayfield had another conflagration Saturday night. Shelton's livery stable and Robertson's grocery were destroyed, and the Presbyterian church and Hotel Mayfield were damaged. Loss \$43,000. Nearly all the insurance companies have withdrawn from the town.

While horseback riding on Taggart creek, twenty miles from Middlesboro, Mary Sumler, a country girl, was set upon by two animals, believed to be wildcats. Her side, breast and right arm were badly lacerated, and she will be compelled to remain indoors several weeks. The horse was also cut by the animal.

An army of Kansas grasshoppers have been camping in the neighborhood of Hustonville, in Boyle county, for the past three weeks and devouring everything. Dr. Wyatt Lettler, of Danville, who owns a fine farm near Hustonville, lost nearly sixty acres of hemp. Other farmers have also lost in a similar manner.

The Western Kentucky Coal and Coke Company, capitalized at \$3,000,000, has been incorporated under the laws of the State of New Jersey. The incorporators are well known capitalists of New York and Western Kentucky, and the company has been incorporated in order to build a new railroad from Madisonville to Dawson Springs, to found a town at Richmond and to develop the coal lands along the route.

Mr J. E. S. Ott, of Buena Vista Boyle county, while hoeing in his garden unearthed sixteen hundred silver dollars. About two years ago he was told by a gypsy fortune teller that he would discover a large treasure there and shortly afterwards found \$2 a few yards from where the other money was found. The treasure was in a box of two inch plank and was probably placed there during the war.

Senator Deboe, while in Louisville last week, said in an interview that he had come to the conclusion that he will have opposition in the senatorial race. "Opposition is not worrying me," said he, "I will be the cautious nominee and there will be a Republican majority in the Legislature." Deboe said that he understood that John W. Lewis would be a candidate for the Senate and that Bradley would probably get into the race. He stated that everything looked lovely to him and that he felt no uneasiness whatever.

Clara Barnes, of Owensboro, was drowned off the Knights of Pythias excursion boat. As the excursionists were leaving, the boat Miss Barnes fell into the river at the head of the wharf boat.

The damage suit of J. M. Richardson, of Glasgow, against Dick Knott, editor of the Louisville Post, and Post Publishing Company, was settled by the Post retracting the article complained of and paying all costs of the suit, including plaintiff's attorney's fees, all personal expenses of plaintiffs in the suit and confessing judgment for one cent and costs.

The Good Roads Convention at Hopkinsville last week was a success. The attendance was very large. A Good Roads Association was organized. The feature of the session of the convention was the defeat of the paragraph in the resolutions calling on the Legislature to pass a law providing for the construction of good roads in the State. The argument over the question was of a spirited nature. The convention then adjourned sine die.

A fire near Lebanon Junction liberated the wild boar which had been in captivity the past six months. The boar was captured in the hills on Crooked creek where it had been living for the past two years or more, terrorizing the farmers. It is of immense size and would never feed in the daytime while in captivity. The community is anxious for its recapture. It has already killed several dogs, sheep and calves.

"He was born in Georgia in 1832 and educated at the University of Georgia. Before the war he practiced law and in 1861 entered the Confederate army as a Captain of infantry. He rose through the various grades and in 1863 he was a Major-General and corps commander. When the army of Lee surrendered at Appomattox General Gordon was in command of the Second Army Corps. During hostilities he was wounded eight times and bears on his face now an ugly scar mark by a Union minnie ball. After the war he took a prominent place among the progressive men of the South, and in 1868 ran as a Democrat for Governor of Georgia. In 1869 and in 1872 he was a delegate to the Democratic National Convention, and in both years was a Presidential Elector. In 1872 he was elected to the United States Senate and soon took rank as one of the most brilliant orators in that body. He was elected to succeed himself, but resigned before his term had expired, so that he could give more attention to his private affairs. In 1886, and again in 1888, he was elected Governor of Georgia, and in 1890 was again chosen as United States Senator."

Notice.

To the Tax-Payers of Crittenden County:

I now have my books for 1901; call and settle your tax. I have waited on some of you for two, three and four years. I am now winding up my business as sheriff and if not paid you will find your land advertised for the taxes. I have waited patiently; I can not wait any longer. Fair warning to all who owe me taxes. This July 15th, 1901.

REV. PRICE

Tells of the Christian Endeavor Convention at Cincinnati.

The Twentieth Century International Christian Endeavor Convention at Cincinnati has just closed. The impression we get from these great religious assemblies are deep and lasting. We had a right royal welcome. The State of Ohio gave us a welcome through the Secretary of State, as Gov. Nash was not well enough to be present. President McKinley sent his greetings and welcome to his State, and Cincinnati gave us a royal welcome in looking after our welfare and comfort.

The music of the Convention is improving and uplifting. The great gospel singers, Jacobs, Hillis and others know how to select gospel hymns, and then they also know how to sing them, so that the congregation can understand the words, feel the sentiment, as well as appreciate the music. It is soul elevating to hear this sweet gospel singing.

The speeches have been magnificent. The best of every denomination and of every nation and of every color and of every clime have spoken to us the earnest words of truth and soberness.

Almost every phase of church work and christian civilization has been discussed. The missionary work, good citizenship, the temperance work, the observance of the Sabbath, the prayer meeting, giving and other kindred topics have been ably discussed. Representatives from Canada, from Australia, from Japan and from China bore the greetings of the workers in those far away lands. Such names as Dr P. S. Henson, J. H. Barrows and R. A. Terry, of Chicago, Bishop Samuel Fallows, of Chicago, Dr Wayland Hoyt and Rev Andrew Shaw, of Philadelphia, Rev Dr J. A. Worden, of Philadelphia, Charles M. Sheldon, of Topeka, Col. Geo W. Bain of Ky., and forty or fifty other celebrated speakers indicate what a feast of good things we enjoyed. The able discussions on "The Home of the Twentieth Century," "What It Ought to Be," and "How to Make It So," were simply grand. The "Twentieth Century City," the "Twentieth Century Church," the "Twentieth Century Citizen" were topics ably discussed. Oh, I wish you all could have heard those good things. Jas. F. Price.

In Memory of Thomas J. Yandell.

As it has pleased God in His all-wise providence to remove from our midst our beloved companion and brother, Thomas J. Yandell, we bow in humble submission to the will of Him who doeth all things well. But we sadly miss his kindly presence and deeply feel his loss; and desire, as a school, to put on record our high appreciation of his companionship and kind and pleasant ways.

It was with sad hearts that we looked for the last time upon his face, as he lay quietly and peacefully in death. We said the last goodbye to his still form, as we laid him under the sod where we had spent so many happy hours together.

We desire also to express our heartfelt sympathy with the father, mother, brother and sister of our departed friend. May God comfort your hearts, dear friends, and keep you unto eternal life, is our earnest prayer.

Now we say by order of Chapel Hill Sunday school.

Several Prominent People Pass Away.—Other News.

Miss Julia Newman, a well known young lady of Hampton, died last week after a long illness.

Marion F. Roach, one of the most prominent citizens of Smithland, died in Paducah last week.

The late R. C. Doom and Geo. W. Marrs, of this city, were both consumptives. About two months ago both started out in search of health in distant lands and neither found it. Mr. Doom went to Titusville, Florida, about 1200 miles in a Southeasterly direction from Grand Rivers. Mr. Marrs went to Denver, Colorado about 1100 miles in an opposit direction from the course Doom went, thus locating themselves about 2500 miles apart. The stern, cold hand of death was laid upon each, about the same time and on June 30th, 1901, two corpses were taken from the east bound train at Grand Rivers, Ky. They were the remains of R. C. Doom and Geo. Marrs. Mysterious and strange indeed are the workings of Providence.—Banner.

Capt. Wm. R. Gupton, the well known steamboat pilot, died at Smithland last week. He was about 59 years of age and had spent his life as a pilot. He was one of the best pilots on the river, and his services were always in demand.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature,—rain, wind and sunshine often intermingled in a single day,—it is no wonder that our children, relatives and friends are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boswell's Syrup kept about prevent serious complications with doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of Throat or Lungs, its success is simply wonderful, as your druggist will tell you. WANTED TO LYNCH THEM.

Mob at Kansas City Wanted Negroes Charged With Assaulting Miss Grace Davis.

WOULD PROBABLY CHOKE THEM TO DEATH

The Negroes Knocked Miss Davis' Escort Insubstantial, and Then Dragged Her Into a Park. Four Hundred Feet Away—Governor Offers a Reward.

Kansas City, Mo., July 13.—Friday night a crowd of 2,500 men and boys surrounded the jail and clamored for vengeance against three negroes, charged with criminally assaulting Miss Grace Davis, Wednesday night, in a populous and highly respectable neighborhood. Eight suspects, two of whom, it was said, had been identified, were held in the jail.

Story of the Assault.

Miss Davis and her escort, Vernice Newton, were walking, when three negroes sprang upon them. Newton was knocked senseless, and Miss Davis was dragged 400 feet into a private park and assaulted. When she recovered consciousness her escort was still insensible. They are both in a critical condition.

Roberts and Holland, the negroes suspected of assaulting Miss Davis, were "sweated," but neither admitted complicity in the crime. Marshal Maxwell has taken every precaution to protect the men, and says he can successfully combat an attack on the jail.

Negroes Still in Jail.

Both the police and the county officials are endeavoring to keep the whereabouts of the negroes secret, but it is known that all three are in the county jail. Roberts and Holland were supposed to have been spirited away from the city Friday night, but it has developed that they had simply been taken into a tunnel running from the jail to the courthouse, across the street, and kept there until the excitement died down. The mob dispersed before daylight, and the men were returned to their cells.

Maupin, it is believed, will be taken before Miss Davis to see if she can identify him. She has already partially identified Roberts and Holland, who, she says, held her while the third man committed the assault.

Are a Bad Lot.

Maupin has served time in the county jail, and at one time was a "trustee." Roberts has served time in the penitentiary.

Gov. Dockery has offered a reward of \$200 each for the arrest of the assailants of Miss Davis.

Fined For Hitting.

Thirteen men arrested for inciting riot were fined \$5 each in police court and released. The charges against them were disorderly conduct, carrying concealed weapons and destroying personal property. Roberts and Holland were arraigned, and their preliminary trial has been set for July 22.

Positively Identified.

Roberts and Holland the negroes under arrest at the county jail, have been positively identified as two of the assailants of Miss Davis. There are doubts now whether Maupin, who was at first believed to be the leader of the gang, had anything to do with the crime. He was made to undergo a severe "sweating" at noon, and at his conclusion Chief Hayes said he thought the man was innocent.

Another suspect was arrested during the morning. Miss Davis is bordering on nervous prostration, and neither Maupin nor the fourth man will be taken before her for identification until her condition improves.

THE STRIKE OFF.

Striking Iron Workers of the Reading Iron Co. Accept Terms and Will Return.

Reading, Pa., July 13.—The striking iron workers of the Reading Iron Co. have decided to accept the terms of Vice-President Swink. The strike was called off, and the men will go back as soon as the company is ready for them.

When the strike was started, the company had many contracts on hand. These either had to be given other firms or rejected altogether. In this way all the old contracts were disposed of. There is little work to be done until new orders are received, but immediate orders are expected, as the iron trade is reported to be booming. The strike lasted nine weeks. The business community is rejoicing over the settlement.

Mrs. Dean Was Obscure.

Brocton, Mass., July 13.—Mrs. William Dean, daughter of Cashier J. L. Haywood, who bravely sacrificed his life in defense of the Northfield (Minn.) bank when it was raided by the Younger gang, resisted every appeal for her signature to a petition for the release of the Youngers.

Out of Corn Calculation.

St. Louis, July 13.—So far the indications are that Kansas and Missouri are not to be counted on as factors in the corn market this year. These immense producers of this cereal are burned out by the worst drought experienced in almost half a century.

Decline of Counterfeiting.

Washington, July 13.—The annual report of the chief of the United States secret service, just published, declares that counterfeiting is on the decrease in every portion of the United States, with the notable exception of New York city and vicinity.

TROUBLE AMONG THE HANNAS.

Mrs. Dan Hanna Leaves Cleveland and Sails for Europe, Giving Her Reasons the Slip.

Cleveland, O., July 13.—The judge of the common pleas court has appointed Senator Mark A. Hanna guardian of the three children of his son, Dan H. Hanna, who is divorced from his wife. A dispatch from New York says that Mrs. Hanna had arrived there with her three sons.

Her husband had obtained an injunction in Cleveland, restraining her from removing the children from the jurisdiction of the Cleveland court.

Mrs. Hanna lately decided to go to Europe again, and before leaving Cleveland, she mortgaged the house Mr. Hanna had given her for \$8,000. Just as she was preparing to leave a sheriff arrived with the injunction, but could not get in. Mrs. Hanna got over the back fence, and with her children boarded the train. Besides her children, Mrs. Hanna was accompanied by the Baroness de Pullandt, who has been a guest at her house in Cleveland. Mrs. Hanna carried her right arm in a sling. She is said to have hurt it climbing the fence.

Mrs. Hanna Sails for Europe.

New York, July 13.—Attorneys for Dan R. Hanna, of Cleveland, obtained from Justice McAdams, in the supreme court, a writ of habeas corpus, returnable Monday, commanding Mary Harrington Hanna to produce in court her three children. Mr. Hanna, in his petition, says that the children were restrained of their liberty by their mother, on the pretense that she has a right to their custody, and that he, the father, has been illegally deprived of their charge. A detective was sent to the Hotel Savoy to serve the writ.

Mr. Hanna accompanied the detectives to the Hotel Savoy. When he arrived there he was told that Mrs. Hanna had sailed with her children on the steamer Menominee which cleared the bar, bound for London, at 10:50 a. m.

RESIGNS FROM THE ARMY.

Capt. Putnam B. Strong, Quartermaster, Telegraphs His Resignation, Secretary Root's Action.

Washington, July 13.—Capt. Putnam B. Strong, quartermaster, resigned from the army, Friday, and his resignation was accepted. The resignation did not come through the regular channels, but was telegraphed to an officer in the department, Strong giving at considerable length his reasons for leaving the service, they being principally business and financial interests which necessitated his personal attention. Capt. Strong's resignation was laid before Secretary Root and accepted by him. It is stated at the department that Capt. Strong's accounts are correct. The department has no official knowledge of any escapade which Capt. Strong is reported to have figured in San Francisco.

ON A SAVINGS ASSOCIATION.

Miami County Loan and Savings Association, at Peru, Ind., Has a Run on Its Funds.

Peru Ind., July 13.—There is a run on the Miami County Loan and Savings association. The secretary has asked Chicago for assistance.

A dispatch from Chicago says: The secretary of the American Trust Co., to which the Peru institution wired for funds, stated that the request for assistance had been complied with, although he declined to say how much money was sent. The trust company's advices were that there was a "little local trouble," but they did not seem to think the outcome would be serious.

A Lord as a Cattle-Take Drummer.

London, July 13.—The earl of Rosslyn has appeared in a new role, that of a drummer. His lordship has been filling in the time between his recent employment as a correspondent in South Africa and his approaching return to the stage as a member of Mrs. Langtry's company, by traveling for a cattle-cake firm. It appears that he was so unsuccessful that his employers terminated his engagement, and his lordship sued them for six months' wages. The earl, attired in the pink of fashion, entered the witness box and got a verdict in his favor.

A Pioneer of Two States Dead.

Helena, Mont., July 13.—Col. John A. Johnson, a pioneer of both Iowa and Montana, is dead here, aged 76. He was twice a member of the Iowa legislature before the civil war, and came to Montana in 1864, having been prominent in political and legal circles since.

Americans Won on Killarney.

Killarney, July 13.—The University of Pennsylvania crew easily won their race against the Trinity college (of Dublin) crew on Killarney lake. The course was from Glens bay to Castle Lough bay. The water was smooth and there was no wind.

Coming to the United States.

THE TERRIFIC HEAT WAVE.

The Chicago Board of Trade Smells Rain, and September Corn Takes a Tumble.

COOLING BREEZES AT KANSAS CITY.

But There are Other Places On This Earth Where It Is Hot Enough—Topeka Has a Cloudless Sky, and Stilling Atmosphere—The Effect on Markets.

Chicago, July 13.—Rain, or predictions promising it, and cooler weather in the southwest, caused heavy selling of corn on the board of trade at the opening, and the September delivery, after touching 54 cents, declined sharply to 49½. Wheat and oats also sold lower, the latter dropping off 3½ cents.

New York, July 13.—Great excitement prevailed at the New York exchange. The weather map early in the day showed no signs of a let-up of the hot spell in the corn belt. The market, however, was topsy-turvy from protracted bull speculations and it only required rumors of rain in Kansas and Nebraska to break the corn market 2½ cents in less than ten minutes at New York, while the Chicago market broke 4½ cents. Great blocks of "long stuff" came out in a steady stream which broke September, the speculative favorite, from 56½ to 53½, with the rest of the list off in proportion.

St. Louis, July 13.—Reports for various points in Missouri, Illinois, Kansas, Nebraska and Iowa, Friday night gave the maximum temperatures at the places named for the day, as follows:

- Missouri—De Soto, 114; Wellsburg, 113; St. Joseph, 112; Paris, 112; Booneville, 112; Columbia, 111; Chillicothe, 110; Mexico, 107; Butler, 108; Dixon, 108; Springfield, 103; Kansas City, 103; St. Louis, 103; Jefferson City, 107; Marshall, 108.
- Illinois—Waterloo, 111; Banker Hill, 106; Carlyle, 102; Jacksonville, 100; Richview, 107; Alto Pass, 106.
- Kansas—Leavenworth, 109; Atchison, 105; Lawrence, 105; Topeka, 102; Abilene, 103; Fort Scott, 110.
- Nebraska—Lincoln, 102; Omaha, 104; Fairbury, 107; Lathrop, 104; O'Neil, 103; North Platte, 89.
- Iowa—Des Moines, 102.

St. Louis, July 13.—The thermometer marked 94 at 2 p. m. There is a good breeze.

Topeka, Kas., July 13.—With the mercury registering 101 degrees at noon under a cloudless sky, this Saturday is the season's hottest day. Last night was stifling, the thermometer showing a minimum registration of 77 and 85 at midnight. At 7 o'clock this morning the registration was 83, at 10:35, and 99 at 11 o'clock. No change in sight for the better, says the weather observer.

Des Moines, Ia., July 13.—At 7 a. m. the thermometer registered 77½ above, two degrees higher than the corresponding time Friday. Indications point to the mercury going higher than 100. Reports throughout the state indicate that the hot weather continues unabated and the crops, while yet safe, are suffering.

St. Joseph, Mo., July 13.—The mercury reached 106 degrees before noon, for the first time, at that hour, this summer.

Kansas City, Mo., July 13.—Not since the present hot spell began here Kansas City people suffered so severely as they did Friday night. Thursday night had proven almost intolerable, but Friday night the conditions were even worse, the average temperature from 8 p. m. to 8 a. m. being 91 degrees. The atmosphere was so heavy that it was almost stifling, and thousands of people slept on lawns or porches, or remained on the entire night riding or walking about town. At nine o'clock this morning the weather bureau reported 93 degrees, or two above that at the same hour Friday, with no prospects of rain or a cooling breeze. For three days this month the heat record here has been broken, and conditions this morning indicated that Friday's mark of 103.9 degrees would be passed to-day.

Shortly before noon a strong breeze came up from the north, and there was prospect of a shower. The thermometer had risen from 93 at nine o'clock to 95 at 11, but at noon a fall of three degrees was noted, the mercury then marking 92. At the Kansas state university at Lawrence, where the hottest weather ever known there was recorded yesterday, the temperature at 11 o'clock was 94.

Omaha, Neb., July 13.—At noon the mercury had reached 97. A cooling breeze came up at 11 o'clock from the southwest, and partially relieved the intensity of the heat.

Sensational Scene in Court. Muncie, Ind., July 13.—Miss Georgia Davis confessed, in court, Friday, to having committed perjury in testifying against some young men charged with criminal assault, two of whom had been sentenced to prison, and she was given a ten-years' sentence. The confession created a sensation.

KANSAS IN DESPAIR.

Lasting Relief Not Expected Before Fall and the Fire Problem Is Becoming Serious.

TOPEKA, Kas., July 11.—The suffering in Kansas from the prolonged drouth is now more intense than ever. It is hardly expected that there will be any lasting relief before fall.

The fire departments in Topeka, Atchison, Emporia, Lawrence, and other of the larger cities have addressed appeals to the people asking them to shut off all their hydrants whenever the fire bell is rung, so as to give the proper amount of pressure on the water mains leading to the fires. There is not a city in the State which is able to cope with a fire. Buildings have reached such an intense degree of dryness that a fire will start on the slightest provocation. In all the country districts streams are running low, and mills and electric light plants that were run by water power have been forced to close down. Most of the ponds have been dry for two weeks and the question of where to obtain water for stock is one of the most important that has confronted the Kansas farmers for years. Stock is being placed on sale at ridiculously low prices.

Reports from twenty-four Kansas counties, mostly in the eastern and central portions of the State, indicate that the corn crop is not so badly off as has hitherto been published. The late corn has not yet begun to tassle and it is the general verdict that it is standing the heat remarkably well and if favorable weather conditions would come at once, a half crop of corn would be obtained in these counties. But the conditions now are anything but propitious for better weather. Farmers have been obliged to double the price of milk, so high has the price of feed gone.

No relief came today to break the almost unprecedented drouth in the southwest. The day was a repetition of the past two weeks, with reports from many places in Western Missouri, Kansas, Indian Territory and Oklahoma of temperatures over the 100 mark. Tonight there is prospect of rain in Oklahoma, but there are no indications of a change in any other part of the Southwest. With no relief in sight, the fears for the crops that have been expressed daily are fast becoming realities, and the scarcity of water and generally dry conditions make the element of fire a most serious one. In Kansas City today the government thermometer reached 102, and at Marysville, Kas., 104 was recorded, against 100 yesterday.

SUNDAY CLOSING ENFORCED.

Exposition Guards Refused to Allow the Public to Enter the Midway Show.

BUFFALO, N. Y., July 14.—The proprietors of the midway shows at the Pan-American exposition made another effort today to open their concessions on Sunday. E. S. Dundy and J. H. Marks opened their shows this evening. They were promptly arrested by the exposition police force and taken to police headquarters.

W. E. Cash, superintendent of admission, was called upon by Capt. Damer to prefer a charge against Mr. Dundy and Mr. Marks, but he declined to do so. Mr. Dundy insisted that some charge be preferred so that the question could be finally settled in the courts. Mr. Cash advised the showmen to close their concessions and that they would be released. They refused. No charge was preferred by the exposition officials and the men were released. The showmen returned to their concessions and again began selling tickets. A detail of twenty exposition guards soon arrived and surrounded the entrances and refused to allow the public to enter. The shows were then closed for the day.

TERRIFIC RAINSTORM

Accompanied by a Wind of Almost Tornado Force—Chickasaw Nation Visited.

DENISON, Tex., July 14.—The worst drouth ever experienced in this section was broken this afternoon by a terrific rainfall of over two hours' duration, the volume of rain being almost equal to a cloudburst. The storm was accompanied by a wind of almost tornado force. Reports indicate that the rain is general in this vicinity. It has come just in the nick of time to save the corn crop. It will benefit the fruit crop and furnish stock water which had entirely failed, causing much distress. It will also benefit lowland corn.

The Southern Methodist Episcopal church, recently erected at a cost of \$15,000, was partially demolished, a number of small houses in the north portion of the city were blown over and wrecked. Shade trees and window glasses all over the city were demolished.

A tornado is reported to have passed over the Chickasaw Nation.

Pickpockets Drowned.

SAVANNAH, Ga., July 14.—The Hebrew Gamaht Hassid held its annual picnic at Daufuskie Beach today. Between 3 and 4 o'clock this afternoon, a number of the pickpockets went into the ocean for a surf bath. Between the shoal and shore is a sluice. The party was bathing in the shoal. Finding the tide getting rather high the bathers concluded to go near shore. Almost at once they found themselves in the sluice over their heads with mountainous waves pounding and a sweeping current running. Out of twelve who started across six were drowned.

THROWN OFF A TRESTLE.

Negro Killed a White Man on a Train and Was Hurled to His Death.

CHARLOTTE, N. C., July 11.—A shooting scene on board an excursion train from Spartanburg to Charlotte resulted in the death of two of the excursionists and the fatal wounding of another. The tragedy occurred at 12 o'clock last night on the return trip. The train was approaching Thickety trestle, one of the highest bridges on the Southern Railway, when a disturbance occurred in one of the cars. A negro, Walter Haynes by name, was seen to draw a revolver. Dexter Kirby, an electrician from Spartanburg, S. C., interposed and sought to quell the trouble. Just as he approached Haynes, the negro leveled his gun and fired. The bullet struck Kirby, an electrician from Spartanburg, who expired in a few minutes. Several of the dead man's friends witnessed the shooting, and before the negro had time to get off the train he was thrown headforemost by three of the excursionists. As it happened the train was at the time crossing Thickety trestle, which is at least 90 feet high. Early this morning a searching party found the body of the dead negro lying beside a small stream beneath the trestle. Steadman, the wounded man, is not expected to live. There is considerable feeling in Spartanburg over what is termed the cowardly murder, and more trouble may result.

LEAGUERS STRANDED.

Pickpockets Got Their Wailets and in Many Instances Secured Victims' Trunks.

GLENWOOD SPRINGS, Col., July 14.—The thoroughly organized gang of pickpockets operating at Colorado Springs is responsible for a party of about twenty Epworth Leaguers becoming stranded here. Men and women alike have been robbed, not only of every cent they had with them, but of railroad tickets as well, and unless the railroad issue tickets back home or their proof of having purchased and paid for the trip to San Francisco and back, they will be compelled to ask aid from the county authorities. In at least ten instances thieves even secured their victims' trunks on the stolen baggage checks. Among those robbed are Dr. J. H. Wilson, wife and daughter, and Mrs. H. R. Harrington, of Dover, Del. Dr. Wilson's wallet, containing tickets for the party, drafts or San Francisco banks and baggage checks, were stolen in the crush at the depot in Colorado Springs. Maj. S. K. Hooker, general passenger agent of the Denver & Rio Grande Railroad, authorized the Glenwood Springs agent to furnish passes to Denver to stranded passengers who desired to continue their journey west.

BRYAN MEN MEET.

Decide to Put Out a New State Ticket in Ohio.

CLEVELAND, O., July 14.—On July 31, Ohio Democrats who believe in Bryan and the issues which he represents, which the recent Democratic convention ignored, will assemble in Columbus and make up a state ticket. They met this morning in a downtown office building in this city and decided that a ballot should be made and that a new ticket should enter the field of Ohio politics.

The attendance at the conference was larger and represented a larger part of the State than was expected by those who called the meeting. A formal statement of principles was submitted to the conference and was accepted. This will be printed and sent throughout the State to those who are known to be faithful to the Nebraskaan. A convention was decided upon to be held at Columbus, July 31. To this convention may come all those who sign their names to the declaration of principles.

Served in Cuba.

NASHVILLE, Tenn., July 14.—News was received here today that Paul D. Cunningham, engineer under the United States boundary commission, had been drowned at Eagle Pass, Tex., while endeavoring to go through the rapids up Rio Grande river. Mr. Cunningham was 31 years of age, and only child of S. A. Cunningham, editor of the Confederate Veteran. He was last year one of the chief engineers engaged in sanitary work in Havana, Cuba, and for a time was practically in charge of work under United States government direction.

Wheeler Wants His Boys.

NEWPORT, R. I., July 14.—Gen. Joseph Wheeler, marshal of the coming federal parade, has sent to Gen. Crane of Massachusetts, a request that the Second and Ninth Massachusetts regiments be sent here on the fete day, July 30, to take part in the parade. Gen. Wheeler is anxious for the presence of these two regiments, which served with him in the Santiago campaign.

Servant Problem.

AMERDEEN, Miss., July 14.—The domestic servant problem is a topic of considerable discussion at this time among the housekeepers. If there is not some improvement in the situation there is talk of organizing with a view to planting a colony from sources foreign to the county and State. That class of servants has by degrees been growing less reliable and satisfactory for several years, until it seems that housekeepers will be forced to adopt some sort of new measure that will afford competent and willing help for the house, yard and kitchen.

"THERE, TAKE THAT!"

Ned Hartley Copeland Shoots and Kills A. C. Rogers on a Railway Train.

COPELAND A DEFAULTING BANK TELLER.

Rogers Was Traveling for a Chicago Packing Firm, and Copeland Is His Recognized Copeland, Who Is Wanted by Detectives—Rogers Known at St. Joseph.

Rawlins, Wyo., July 13.—A man named Rogers was shot to death by Ned Hartley Copeland on Union Pacific train No. 6, Friday night. Copeland was traveling from Stockton, Cal. to Council Bluffs, Ia. When at a point three miles east of Wamsutter he walked into the car where Rogers was sitting, and at once began shooting at him, saying:

"There, take that!"

He shot three times, the bullets entering Rogers' breast, and he died instantly. Copeland was arrested and is now in jail here.

When asked what caused him to kill Rogers he said:

"He had me hypnotized, and I had to do it."

Copeland is undoubtedly out of his mind. As the killing took place in Sweetwater county Copeland will be taken to Green River and turned over to the authorities there.

Identity of the Dead Man.

Omaha, Neb., July 13.—A special to the Bee from Cheyenne, Wyo., says: N. H. Copeland, who shot and killed A. C. Rogers, on a Union Pacific train near Wamsutter, Wyo., Friday night, was formerly a bank teller of Omaha, and resides in South St. Joseph, Mo. He said he killed his companion to save his own life, and break a hypnotic spell.

Papers found on the dead man's body showed him to be a traveling man for the Chicago house of the Swift Packing Co. The body was left at Rawlins.

Brakeman Schamp, who overpowered Copeland, had a narrow escape from the bullets.

Copeland was a trusted teller in the Nebraska national bank in this city for ten years prior to August, 1899. He left the city at that time, ostensibly for a summer vacation and visit to the eastern states, and has not since been heard from.

Was Shot Ten Thousand Dollars.

At the bank Copeland was designated as the "B. & M." teller, he having charge of the deposits of the Burlington & Missouri river railroad. A month after his departure the Burlington account at the bank showed a shortage of \$10,000. Half of this amount was made good by Copeland's brother-in-law and the remainder by his bondsmen. The bond company that acted as his security has been looking for Copeland ever since the shortage was discovered, but has been unable to locate him.

Robbers Known at St. Joseph.

St. Joseph, Mo., July 13.—A. P. Rogers, who was killed by N. H. Copeland in a Union Pacific train near Wamsutter, Wyo., was employed by Swift & Co. in transporting poultry from St. Joseph to San Francisco. He left here two weeks ago in charge of a car of poultry, and was on his return when killed. He has no family.

Monument to Russian Dead in China.

Tien Tsia, July 13.—A hundred Russian officers, a band of music, two priests from Port Arthur, M. De Giers, the Russian minister, and other members of legations attended the ceremony of the opening of the new concession and the unveiling of the monument erected to the memory of the Russians killed during the relief of Pekin legations. A majority of the Russians will remain to celebrate the French national fete, July 14.

The Time Lock Does Not Operate.

San Francisco, July 13.—Safe expert Charles Walz has discovered that the time lock on the cashier's vault in the mint, from which \$30,000 was stolen, does not operate, and has been out of order for an indefinite time. This has broadened the scope of the investigation now in progress by secret service men, as it is apparent that the robbery may have occurred at any time between 3 p. m. and nine o'clock the following morning.

What the Hottel Process Revealed.

San Jose, Cal., July 13.—The boiling of the remains of Lee Wing, the murdered Chinese, to ascertain if a bullet from Lee Look's pistol had entered his body, has been completed, after continuing for nearly 24 hours. Fourteen large buckets and one 44-caliber bullet were found when the mass was strained. This bullet is of the size of Look's revolver.

Charles Lilly White's Case.

New York, July 13.—A dispatch to the Tribune from London says: Charles Lilly White is endeavoring to induce the American government to take up his cases for damages for arrest and seven months' imprisonment.

Belgian Queen Prostrated by Heat.

Brussels, July 13.—Queen Marie Henriette fell a victim to the extreme heat which prevailed Friday. Her majesty was playing croquet in the grounds of her villa at Spa when she was overcome and fell. She soon recovered.

Mill and Smelter Burned.

Silver City, N. M., July 13.—The Bremen mill and smelter, just below town, has been totally destroyed by fire. The loss is not known.

SOUTHERN GLEANINGS.

He Is an Old School Boy.

Ex-Chief Justice L. E. Beekley, of Georgia, aged 73, not content with matriculating as a student last year at the University of Georgia, has engaged the services of a tutor for the summer months. Prof. Marens, who has been elected professor of mathematics at Stanford university, will spend several weeks with the distinguished jurist at his summer home and coach him industriously. Judge Beekley is writing what he expects to be an epoch-making book, called "Values," and he desires the assistance of the learned mathematician. The book deals with currency and commercial values.

For Scientific Purposes.

The other day a small box covered with gauze and labeled "four hundred mosquitoes" was shipped from a small station in South Carolina to the Academy of Natural Science, at Washington. The insects were quite lively when they arrived, and were apparently in as good health as when they started on their journey. The mosquitoes are, of course, to be used in scientific investigations.

Maj. T. J. Mackamy Dead.

Maj. T. J. Mackamy, formerly a noted politician and prominent citizen of Virginia, who went to Mexico 30 years ago, and had ever since lived a life of a hermit on a ranch in a remote part of the country, is dead. He lived in an adobe hut in the village of Guadalupe Calve, and was never known to speak to an American after entering upon his life of seclusion.

A Negro Church.

Gov. Beekham of Kentucky is wrought up over the proposition to build a negro Baptist church adjacent to the executive mansion, and his friends say he will recommend that the legislature submit to the people an amendment to the constitution providing for the removal of the capital from Frankfort if the church is built.

A Brave Kentuckian.

While Giles Gore, a young man near Hopson, Ky., was repairing a fence, a runaway horse, with a child in the buggy behind it, came down the road. Gore tried to stop the frightened animal and succeeded after being dragged 75 yards and killed. He lived long enough, however, to see he had saved the life of the child.

Pardoned by Gov. Longino.

Gov. Longino of Mississippi has pardoned T. Dabney Marshall. Six years ago Marshall, Robert Fox and Harry Coleman, prominent young Vicksburgers, killed R. T. Dinkins at Brandon for circulating stories on Marshall. Fox and Coleman were pardoned by Gov. McLaurin three years ago.

Pulaski County Taxes.

Sheriff Fred Schader announces that the total amount of taxes collected for 1900 in Pulaski county was \$399,949.72, of which white persons paid \$384,566.45, or 93 per cent., and colored \$15,383.27, or 7 per cent. The poll taxes collected were: White, 5,103; colored, 2,360; total, 7,463.

Consolidation Humor.

There is considerable talk about the consolidation of the Natchez press and the People's Press Co., at Natchez, Miss. Nothing decisive has been given out. The People's company was chartered last year. A compass was built and completed late in the season.

Killed by Lightning.

In Alabama a four-year-old child was killed by lightning in Montgomery, a negro man was killed near Greenville, and a negro woman near Wetumpka. A residence was destroyed at Tuskegee, but no one was seriously injured.

Mrs. Jefferson Davis Improving.

Says a Portland (Me.) item: The condition of Mrs. Jefferson Davis, widow of the confederacy, is considerably improved. Her illness is not considered at all serious. (Mrs. Davis is spending the summer in Maine.)

Terrific Storm in Mississippi.

During a terrific wind and rain storm at McComb City, Miss., William Kuntzmann and Andrew Johnson were fatally hurt. John Dykes had both legs broken.

Halpin Caused His Death.

P. A. Dunn tax collector of Autauga county, Ala., borrowed a hatpin from his wife to clean his revolver. The weapon was discharged, and Dunn was killed.

Died at the Age of 110.

Glaseo Crews, colored, died at his home, near Whiteville, Tenn. His age was 110, and the day before his death he walked to Jackson, a distance of two miles.

A South Carolina Congressman.

Dr. J. William Stokes, congressman from the Third South Carolina district, died at his home in Orangeburg. Had been in bad health for months.

Killed Husband and Wife.

James Whittington shot and killed Sam Hill, a negro, at Laurel, Miss., and mortally wounded Hill's wife. It is said the shooting was unprovoked.

To Investigate Charbon.

Gov. Longino of Mississippi will make a thorough investigation of the epidemic of charbon among cattle and other live stock in that state.

Killed While Threshing.

Sampson Lewis, a farm hand near Cedar Hill, Tenn., was caught in a belt of a threshing machine and so badly mangled that he died.

Mrs. Martha Patterson Dead.

Mrs. Martha Patterson, the last of the children of ex-President Andrew Johnson, died at Greenville, Tenn. Her last hours were peaceful.

CORN BELT NOT BADLY HURT.

Secretary Wilson Thinks There Is No Cause for Alarm—The Lack of Moisture Has Not Seriously Affected the Crop.

WASHINGTON, July 11.—Secretary of Agriculture Wilson hopes that the corn crop of the Western States has not yet been ruined by the drouth. He is disposed to believe that the reports as to the damage have been exaggerated.

"I do not regard the corn crop as seriously damaged," said Secretary Wilson yesterday, "notwithstanding the press reports from the Western States. On the first of July the condition of the corn crop was more promising than on the same date last year, and even if the press reports are not exaggerated, although I am inclined to think that they overstate the real conditions, there is not as yet cause for genuine alarm. Throughout the area of the great corn crop the drouth has not been severe enough to seriously affect that crop. Hot weather is not damaging to corn at this season. In fact, high temperature at this season is one of the requisites of corn development, and so I think we had better wait a while before we say that the corn crop is ruined. For myself, I think that we will have plenty of corn in this country. The press reports from Kansas and Nebraska are, of course, discouraging, but the crop in those States is not great, except in the eastern portions. The great corn belt of this country is east of the Missouri river and west of the Ohio. I have not yet seen anything to indicate that there has been a large amount of damage in this area of country. I am going to wait, therefore, until I hear whether the drouth has been disastrous in Iowa, Illinois, Indiana, Michigan and Wisconsin before I become really alarmed."

The ruin of the corn crop would be a serious disaster, would it not?"

"The extent of such disaster," was the reply, "can be gathered when I say that the corn crop is the first in point of total value in the United States. From 1879 to 1900 the total annual value of corn, based on farm price on the first of December of each year, has ranged between \$500,000,000 and \$750,000,000. Only once has it fallen below the smaller number, while five times it has exceeded the larger. We supply about 75 per cent. of the world's products."

FIFTH SUCCESSFUL VOYAGE.

Carlisle D. Graham Goes Through the Whirlpool Rapids in a Barrel.

NAGARA FALLS, N. Y., July 14.—About three thousand people saw Carlisle D. Graham make his fifth successful voyage through the whirlpool rapids in a barrel this afternoon. The barrel is of locust wood, oval-shaped, except that it has a flat head. It is about five feet long, nineteen inches in diameter at the foot and twenty-five inches at the head. With its 100 pounds of ballast it weighed 165 pounds. The start was made from the Maid-of-the-Mist landing, below the Falls. The barrel was caught in an eddy and circled about a little above the cantilever bridge for a quarter of an hour. The stronger current in the middle of the stream finally jerked it out of the eddy into the foaming waters of the rapids. Passing under the second bridge the barrel had a narrow escape from being dashed to pieces against the stone abutments of the bridge. The passage through the rapids was swift. It took the barrel five minutes to reach the eddy from the starting point and twenty minutes to get out of it, but it took only three and a half minutes to pass through the rapids and the whirlpool, a distance of about a mile. At no time during the passage through the rapids was the barrel lost sight of. It was taken from the water after it had circled about in the whirlpool for a few minutes. Graham was slightly bruised about the elbows and knees, but he was otherwise unharmed.

The Poisoned Candy Case.

SAN FRANCISCO, Cal., July 15.—The attorneys of Mrs. Cordelia Botkin, who has been granted a new trial by the State Supreme Court on the charge of murdering Mrs. John P. Dunning of Delaware, are preparing to carry her case to the United States Supreme Court. They will file tomorrow a petition in the State court for a writ of habeas corpus. It is expected that the application will be denied, in which event the case will be carried to the Supreme Court of the United States on a writ of error. In the petition for a writ of habeas corpus two new points on the question of jurisdiction will be raised. First, that the sending of a box of poisoned candy through the mails, which caused the death of Mrs. Dunning and her sister, Mrs. Deane, was not a crime in this State; second, that the constitution of the United States prohibits the trial of an accused person except in the State where the crime was actually committed.

RAILROAD TIED UP.

Engineers and Firemen Resigned When Their Request Was Denied.

EAGLE PASS, Tex., July 14.—The engineers and firemen on the International Railroad have resigned, and business on that road is now suspended. The trainmen requested an advance in wages and it was refused, which is the cause of their action. There is no concerted strike, but all the men are out. The road is a Southern Pacific property, but the men are paid in Mexican money, and this has greatly depreciated in value.

If cleanliness is next to godliness, Marion ought to be in a better spiritual state just now than ever before, and but for the records of the police court, the little city would look tolerably well.

The wholesale merchants of Louisville have been touring the State, but somehow they missed Marion. Perhaps they are aware of the fact that this town is worth a special trip and will act on this information.

The Good Roads conventions at Hopkinsville and Owensboro were largely attended by enthusiastic crowds and deeply moved by rousing orators. Kentuckians are always next when there is a convention on hands, and if it is not a political gathering, why a road or Sunday school convention will do as well.

In Nashville they are talking about a railroad from that city to St. Louis along the route the crow would fly. Railroad projectors have been talking to the people of Cadiz about a railroad through this section. At Salem and at Marion the surveyors have been at work. Of these multitude of projects one at least should materialize.

Ohio Democrats are trying to get up a split in the party because the recent State convention did not mention Mr. Bryan, and specifically endorse the Chicago and Kansas City platforms. It is but right and proper to stand by the old platforms and the old, but always new leader, yet it is neither profitable nor pretty to quarrel and split even in Ohio where Mr. Marcus Hann has been, is and will continue to be it.

According to Washington dispatches the excessive prices for machinery forgings has aroused the Navy Department and Congress may be appealed to in order to secure permission to obtain crank shafts for new battleships from English manufacturers. It is certainly selfishness on the part of the government and looks rather small, that for years and years, she permits the tariff protected manufacturers to do as they please with the individual buyers of this country, but when it comes to Uncle Sam's taking a small dose of the medicine he has been giving the people, he makes wry faces and talks of appealing to Congress for relief. If the Navy Department feels outraged at prices it must pay for "crank shafts" for a few battleships because of the trusts, and wants to go where it can buy cheaper, how should the seventy million people who are paying trust prices on every manufactured article they have to buy, feel about it? If the remedy is vested in Congress for the Navy, where is the remedy for the individual buyer?

With an electric light plant coming rapidly on; streets being macadamized; a long line of zinc ore wagons rolling into town every day; prospect of another railroad flatter; Crittenden springs hotel full of guests; the board of health mopping every nook and corner, and the city administration enforcing every law that covers the field of ethics and morals, why shouldn't the Marionite be happy, even if old Sol is peppering us a little with what the chronic grumbler is sure to get plentifully hereafter.

Gen. Gordon's great lecture became famous at its first delivery in the Tabernacle of Brooklyn, New York, before an audience of five thousand people. Its broad patriotism, its exquisite humor, its faithful portrayal of great leaders of both armies, its pathetic delineation of thrilling incidents, and the magical eloquence of the description of the closing scene at Appomattox, and of Grant and Lee, as they stood together in the little brick house in the last act of the great drama, and the mingling together of the soldiers of the hitherto hostile armies, combine to make this lecture one of great historical and patriotic interest to the young and old of both sections.

To Teachers.

I mail each of you today syllabus of the institute with your special subjects marked. Please to call for it and study it diligently, every part of it before Monday morning. Please to consider all the subjects more or less your own. Come early Monday. Come to stay until Friday afternoon. Bring as many friends as you can and persuade others to follow. Expect a good institute for there is too much interest and ability among the teachers of this county to have other than a profitable and interesting meeting whenever they come together. By all means arrange to stay for the lecture Monday evening and get your friends to come; you cannot afford to miss it nor can they. General Gordon is the greatest orator that I have ever heard.

Please to arrange with some one in your neighborhood to announce time and place of institute in your churches and sabbath schools and give all the people an invitation to be with us. Thursday afternoon is trustees day.

Yours Sincerely;

Mina Wheeler.

McKinley Endorses Gordon.

Columbus, O., April 3, 1895
Southern Lyceum Bureau, Louisville, Ky.:

I take pleasure in bearing my testimony to the excellence of Gen Gordon's lecture, "Last Days of the Confederacy." When General Gordon delivered the lecture here for the G. A. R. it was my pleasure to preside. The lecture was intensely interesting and was permeated by a highly patriotic spirit. I have a high regard for Gen Gordon personally, and he has my most sincere good wishes in his lecture enterprise.

Very truly yours,
WM. MCKINLEY.

Osteopathy.

(From Our Special Correspondent).
FRANKLIN, KY.,
July 15, 1901.

ED. PRESS: The school closed last week. There were 25 graduates who had spent two years preparing thoroughly to grapple with disease. Today they are practicing in several States and will average \$100 to \$500 for their first month's work. Osteopathy is the only profession which offers a field for labor in which there is no competition and in which there is so great a demand as to give the new graduated doctor a larger income and practice than the most successful old school physicians attain in a lifetime. The cause moving many young men and women to consider the merits of osteopathy. The largest class which has yet enrolled will enter in September. The Southern School of Osteopathy is better equipped and prepared to give a large measure of preparation and experience than any other osteopathic school.

During the summer the professors of the School of Osteopathy are engaged wholly in the infirmary, and patients have the advantage of their skill and knowledge. This is a fine opportunity to obtain the most skillful operators and every care and attention. This is the period in which the practice is the largest and it is worth while for the afflicted to consider the advisability of spending the summer in Franklin.

Franklin is a health resort having fine sulphur wells, and it is a delightful place to spend the vacation. Board can be obtained at ten dollars per month with every convenience. Few other places can afford the measure of comfort and pleasure at any price that can be obtained here at a very small cost. Shady streets, pleasant homes, and a hospitable people all contribute to make Franklin an ideal summer resort.

For literature and further information address.

Very truly,
Southern School Osteopathy.

BLACKFORD.

Harry Parker, of Shady Grove, was here Sunday shaking hands with his many friends.

John J. Nunn of Sullivan, was in town last week.

George Beard, editor of the Dix on Journal, came down on the K. W. Sunday.

Several of the boys from here were before the grand jury at Dixon last week.

O. C. Quirey and wife, of Sturgis, visited relatives in town Sunday.

Julian Ainsworth, of Marion, was here last week.

If you want a large crop of good wheat, buy Eagle brand fertilizer. Crowell-Nunn Co.

Rev C. I Gooch filled his regular appointment at the Baptist church here Sunday.

Our Sunday school is progressing nicely. Both teachers and officers are alive to their duties and are doing all in their power to make the Sunday school a success. Would that the older heads of our town would realize the responsibility that rests upon them as parents and would set the proper example before their children by coming out to Sunday school.

Go to Crowell-Nunn Co. for bale ties.

The property occupied by J. R. Bean, of this place, was sold at the court house Saturday by Master Commissioner Roy Baker, of Dixon. The property was sold to determine the value of an interest of an infant heir. The property was purchased by J. R. Bean at \$600.

Crowell-Nunn Co. and Carnahan & Son are placing the material on the ground for the erection of two large business houses near the depot.

Mrs C. L. Corry of Sturgis was in town Monday on business.

Mrs. Bud Anderson and little son, of Henshaw, were visiting relatives in town last week.

There is a great deal of talk of a tobacco factory being built here. We believe if the people of Blackford and the surrounding community would take into consideration the benefit a factory would be to them, and take the matter in hand and go to work in earnest, it will only be a short time until we shall have a tobacco factory.

Miss Kora Mae Klapp and Mr. R. C. Ballard, both of Jonesboro, Ark., were married at the residence of Mr. R. A. Moore, of this city Thursday evening and left on the evening train for Jonesboro. Miss Klapp had been the guest of her sister, Mrs Moore, for some weeks.

No synopsis can convey the slightest idea of the superb lecture, "The Last Days of the Confederacy." It must be heard to be appreciated. Humor, pathos and lofty eloquence were so delightfully blended that the mosaic loses all the brilliance of its coloring in the weak effort to place it in cold type.

SERIOUSLY INJURED.

Mr. Ringo, of this City, the Victim of an Accident.

Wednesday afternoon of last week Mr. Ringo, of this city, was frightfully injured in the saw mill of I. V. Runyan, in Union county. He was sharpening the large circular saw when the engineer started the machinery and before Mr. Ringo could escape his arm and side were terribly lacerated. The engineer was unaware that any one was near the saw. Mr. Ringo is at his home in this city, and is getting along nicely under care of physicians.

Health Notice.

MARION, KY., July 15, 1901.

EDITOR PRESS: Sir: It becomes my duty, as health officer for Crittenden county, to notify the people of the prevalence of a severe and dangerous epidemic of colitis, dysentery, cholera morbus, etc.

The following rules should be observed: Don't overeat or eat when very warm. Eat slowly and at regular intervals. Avoid green fruits and don't partake very freely of the coarser green vegetables. Drink plenty of water but don't drink large draughts of cold water when very warm. Avoid sudden cooling of the surface of the body. Early and prompt attention should be given to all the milder derangement of the stomach and intestines, especially in children.

These attacks are usually easy to manage at the outset, but may quickly pass beyond control.

Yours,

W. J. J. Paris.

From my farm, 3 miles south of Marion, one pale red heifer, will weigh about 600 lbs., unmarked. Any information as to her whereabouts will be thankfully received. J. C. Elder, Sr.

The Commissioner will offer for sale lots numbers 5 and 6, as above described, separately, and then he will offer said two lots for sale as a whole, and will accept the bid which in the aggregate produces the most money.

FORWARD MOVEMENT

A Philanthropic Enterprise of Truly Universal Interest.

Its Purpose Is the Foundation of a Well-Balanced Character in Children Who Have No Real Home Life.

(Special Chicago Letter.)

A GREAT deal has been written and said about the grand work being done among the foreign residents of the congested districts of Chicago, but too much can hardly be added in praise of the "Forward Movement" which, during the last seven years, has been brightening and enlarging the lives of the inhabitants of the northern portion of the crowded Nineteenth ward, the population of which is largely American, poor but respectable and unfortunate, to which the saloon formerly offered the only social meeting place. The scope of the work is such that its influence must gradually extend all over the country. If arrangements could be made for city children to go to the country in summer and country children enjoy the advantages of city life in winter, the benefit would be mutual. When our churches all open every day in the week, and all, rich and poor alike, can feel an equal right to enter and enjoy the spiritual and social advantages which must, in time, be provided, then the work of Dr. George W. Gray and many others whose efforts are in unison will be more generally understood and appreciated. During the vacation season the only playground for the children of the poorer classes is the street, and while that furnishes the fresh air impossible to obtain in the one room occupied, perhaps, by an entire family, they become precocious, educated in the way of sin, and with a predominant idea of making all they can out of everybody. A poor woman was obliged to change her home to another portion of the city and said: "Yes, I should like to be near a school, but I would rather be near a settlement. The children want to

against the beliefs of any other. The church will be strictly non-sectarian. It is believed that the spiritual side of the people to be benefited is especially in need of development. The chapel will set back about 180 feet, leaving a park in front for the children. In one wing of the building it is planned to have an entertainment hall, gymnasium, bowling alley, baths, swimming pool, club and class rooms and apartments for industrial training for boys, and in the other wing corresponding rooms for girls. There are to be a kindergarten and many other necessary apartments. The building is designed to accommodate from 5,000 to 10,000 weekly in the various lines of work. Dr. Gray said the other day that he had planned little souvenirs to be sold at one dollar each. He lectured in a small Illinois town the other Sunday, and at the close of his address over 50 people came up and gave their names and dollars, requesting him to send souvenirs when printed. He hopes to obtain \$10,000 in this manner.

A great feature of the work is the summer house near Sangamon, Mich. A park of about 300 acres has been secured, with a frontage on Lake Michigan. Of this 200 acres has been set aside, which is to be divided into lots for summer cottages, the rental of which, it is expected, will furnish an endowment fund sufficient for all expenses. The management agrees with Mr. Armour, who once said: "No one has a right to foist upon society an institution that will mortgage the future for its support." The settlement and park are organized as a "Republic of Self-Control." Their senate is composed of two members from each of the boys' clubs, and the house of two representatives from each of the girls' clubs; the president, Dr. Gray, having the power to veto, which he has never yet been called upon to exercise. The children make their own laws, and have courts in which offenders are regularly tried and sentenced to make good, either in money or labor, any damage they may have done. A savings bank receives the pennies saved by the children. Regular attendance at club entitles them to merit marks, a certain number of which pays for a week's board at the park. Fathers are especially encouraged to attend the

WATER FARMING.

Wisconsin's Many Lakes Give Promise of Great Profits When the Time Comes.

Scientists who make it their business to look ahead into the far future are now busy telling what will happen after all the land in the United States has been put under cultivation. When there are no more quarter sections upon which the settler can establish himself, it is predicted that water farming will become a general occupation.

This information is comforting to residents of Wisconsin, says the Milwaukee Sentinel. No state in the union has better facilities for water farming than the one famous for the number and beauty of its lakes. When the time comes for men to fence off acre plots on the crystal waters of the inland seas Wisconsin will have a boom worth while waiting for with patience.

Of course there will be drawbacks to water farming, but the industry offers great possibilities. Although it will be difficult to keep one's crop of fish from being mixed with one's neighbors', there will be no plowing or harrowing, no wrestling with stumps, and no trouble over irrigation. After the fish are planted each season there will be nothing to do but to wait until harvest time. By a little diplomatic advertising water farmers may persuade city men to spend their vacations on the lakes as assistants during this harvest season. Houseboats on the water farms would be ideal places of residence during the hot months.

It is estimated that the fisheries of the United States produce food of the value of \$5,000,000 every year. As soon as the water farming industry has a good start, Wisconsin will be able to add millions to this amount. If the calamity howler cannot find anything worse to prophesy about than the water farm, this state can pursue daily its business pursuits without any forebodings.

WORK OF THE SOLDIER.

Its Monotony Makes a Day's Fighting a Positive Rest and Relief.

It is impossible to understand the conditions which go to make up the efficiency of a field force, unless it is realized that there is always a long, monotonous background of commonplace workaday life, where common physical needs and trials are the really absorbing things for the ordinary soldier, says the Monthly Review. The more so because the operations in which he is engaged may be a complete mystery to him; forced marches may seem purposeless and fruitless; the object and method of a fight itself are probably unintelligible to him. Of the general progress of the war he knows nothing. What he does know is that he is tired and hungry. If he is personally engaged on any definite day the difference to him may be very little. Momentous questions of sleep, bacon, scraps of biscuit, the chance of a chicken, the prospect of fatigue or outpost duty when he gets in still occupy his mind, together with a score of little material details of work or physical comfort, which affect him every day alike. I do not mean that such things affect his keenness and ardor in fighting. Fighting and the rest are all in the day's work. He may, indeed, if he is lucky, find a day's fighting a positive rest and relief. He will certainly have distance to march, and mere mechanical marching "hunks" in a soldier's life. If an infantry soldier, he may be in support, and lie on his back snoozing and smoking peacefully half the day, never under fire or firing. If a mounted man, he may be holding horses or watching a flank with plenty of leisure. As an artillery driver I found, rather to my surprise, that I had more leisure during a hard day's fighting than on a day of simple marching, or of rest in a standing camp, with its many necessary duties of grooming, harness cleaning, grazing horses and miscellaneous "fatigues."

War and Geography.

A new, although possibly doubtful, blessing of war has been discovered by a Philadelphia schoolteacher, who asserts that since the Spanish-American conflict and the Transvaal and Chinese troubles her pupils have made wonderful progress in geography. She has under her charge children ranging from nine to 11 years of age, and declares that she expects them to graduate with 100 per cent. to their credit in geography. The boys in particular are so eager to see where the troops landed, the route they followed and the battles they fought, that they spend much time poring over the atlases and studying the maps. "So you can see," she says, "that their knowledge of geography is much greater than it otherwise would have been, as it was made interesting by a study of coming events in those particular countries. Thus the geography of these conflicts and the history of them are pretty well fixed in the pupils' minds."—Youth's Companion.

Tobacco Incubation.

The governor of Michigan has an exhibit whose members nearly all smoke large, dark cigars without reproach from his excellency. Yet there is little doubt that the governor will sign the law making it criminal to sell or give away cigarettes. This is another example of swallowing the camel. In the state of Connecticut they do somewhat the same. In the school text-books the children are taught that a drop of nicotine will kill a full-grown cat in one minute and that the smoker shuffles in his gait and loses ambition, and at the same time the state spends \$500 a year to encourage experiment in tobacco growing.—Medical Age.

One of Dinah's Surprises.

A Baltimore woman recently secured an old and spicy southern cook named Dinah, whose unfamiliarity with city ways and her questions were a constant source of amusement to the family. One morning shortly after she arrived the door bell rang and Dinah answered it as usual. In a minute she came back with a surprised expression. "Missus," she exclaimed, "der am a man dere what wants 24 cents for de sun." Mrs. Just gave her the money and she returned to the door. "Does you hah to pay for de sunshine here, missus? In Virginia we don't hab to pay for de sun. It's just as free as de air of hebbin."—Baltimore Sun.

An Emphatic Touch.

Ton Suggestive.

A Medical Testimonial.

Sirs: We fed our baby on modified cow's milk the first six months, but the milkman did not understand how to modify his cow properly, and in consequence the child lost flesh till he weighed but one pound. I now procure some of your celebrated Infant's Food. This the baby managed to trade off to the dog for some dog biscuit, which he ate, and is now well and hearty. The dog died, but dogs are cheap. The Trust Problem.

To a thoughtful mind, the trust problem is one of serious import. It must be firmly grasped with, for it creeps upon society before you are aware of its existence, in this respect much resembling the various disorders which attack the stomach, such as constipation, indigestion, dyspepsia, biliousness, liver and kidney troubles. Hostetter's Stomach Bitters is the one reliable remedy for all such ailments. Be sure to give it a trial.

Supreme Court Sustains the Foot-Ease Trade-Mark.

Justice Laughlin, in the supreme court, Buffalo, has ordered a permanent injunction, with costs and a full accounting of sales, to issue against Paul H. Hudson, the manufacturer of the foot powder called "Dr. Clark's Foot Powder," and also against a retail dealer of Brooklyn, restraining them from making or selling the Dr. Clark's Foot Powder, which is declared, in the injunction of the court, an imitation and infringement of "Foot-Ease," the powder to shake into your shoes, now so largely advertised and sold over the country. Allen S. Olmsted, of Leroy, N. Y., is the owner of the trade-mark "Foot-Ease," and he is the first individual who ever advertised a foot powder extensively over the country. The decision in this case upholds his trade-mark and renders all parties liable who fraudulently attempt to profit by the extensive "Foot-Ease" advertising, in placing upon the market a spurious and similar appearing preparation, labeled and put up in envelopes and boxes like Foot-Ease. Similar suits will be brought against others who are now infringing on the Foot-Ease trademark and common law rights.

PROPOSED BUILDINGS FOR THE CHICAGO FORWARD MOVEMENT.

Join the clubs and I couldn't live without a mother's meeting. It gives me something to think about when I am washing. I know where the children are when they are at a club, and it gives them something to talk about. They don't fight half as much as they did. If they go to a settlement, nothing will keep them from school."

The help given by the forward movement is not so much in the nature of charity as in giving hope and impetus to the discouraged and opportunity to all. Dr. Gray says that "every child should have an opportunity to meet its obligations to society." It is impossible for the mothers, burdened and environed as they are, to train their children properly. Perhaps they lack the necessary knowledge. The doctor found so

settlement meetings. Here they see their families in a new light, and learn to take pride in the progress of their children, who are perfectly at home in the freedom of their surroundings. Some method is always provided by means of which destitute mothers and children may go to the park without expense, but it has been found to the advantage of those who can do so to charge small sums for board.

Dr. Gray personally paid for the outing of several poor women last summer, and one day learned that two of them had telephoned, ordering a carriage for which they paid three dollars, in order to enjoy a ride around the country. They could have paid their own way, either in money or labor. At the Settlement it was found that gifts of free clothing were making beggars of the women.

Miss Dix, who has charge of that department, called them together and publicly explained this to them. Now they all pay a few cents or do a little work around the house for what they receive and are rather proud to wear the garments, telling each other what bargains they have secured. The janitor service of the building was paid for by this money last winter, and the women had the satisfaction of feeling that they were not "objects of charity." To encourage this same feeling of self-respect a small weekly sum will be charged at the park. If a child goes for two weeks, on the first he is a visitor, on the second he pays \$1.50, or works not to exceed 2½ hours daily. Entertainment is provided for every waking hour. The park movement was largely brought about by a perception that sending children to tent in the suburbs made them too much an object of public attention. They were remarkable for their poverty. Occupants of carriages would drive up to the camps and select nice-looking children to drive with them, and some were encouraged to sing and dance, being paid in fruit or pennies. All this, while helpful in a way, did not give them the quiet and example of home life, the pleasure of doing for others without expectation of reward, which life at the park furnishes. This is intended to be strictly private and in accordance with usage in that of the families of more fortunate children. The little ones are often found ignorant of the simplest of table customs, being accustomed to have food by the "piece" and carry it in their hands until eaten.

The Forward Movement is divided into social, civic, educational, recreative and spiritual work. Its purpose is the foundation of a well-balanced character.

EDWARD JULIAN.

DR. GEORGE W. GRAY.

many homeless, untaught, lawless children on the West side, that he persuaded two of them to live with him for awhile, and induce others to come and pass a few hours in a natural, boyish manner. He was so encouraged by their grateful response that the house at 221 South Sangamon street was secured, which has, since that time, been the home of his work, which he hopes will extend indefinitely. He has been aided, both by money and personal effort, by many of the best-known people of this city and the work has so grown that a lot of over 400 feet frontage has been practically secured on West Van Buren street, upon which it is proposed to erect a fine set of buildings, the cost not to exceed \$75,000. The Daughters of the Revolution are to help. An Episcopalian lady has promised \$15,000 for a chapel to be erected in the center of the grounds, in which religious services of all denominations may be held, the only restriction being that no sect speak

Sunday-Closing Laws Are Observed
by All Classes of Society—A Hint
for Citizens Who Love to
Sign Petitions.

[Special Washington Letter.]

IT IS the undivided opinion of experienced army officers that the canteen should never have been taken away from army posts. Their opinion was not listened to before the law was passed abolishing the canteen; and now their views are even more pronounced, because of existing conditions in the army.

An officer on the staff of the adjutant general recently said: "Gen. Corbin would never dream of telling any school-teacher how to manage a public school. He would never think of telling a preacher how to manage his church, or how to preach. He would never offer to instruct a superior organist how to drill a choir. He would not be so absurd as to offer to act as surgeon in place of the surgeon general. But he knows how to manage the army, because that has been his life business. But the good preachers and well-meaning temperance workers, who know absolutely nothing about army life and its environments, boldly undertook to abolish the army canteen, and they succeeded."

It is singular and gratifying to notice what interest the people of the country take, not only in the army, but in the citizens of their national capital. The petitions which they have sent here to be used before congress for the total prohibition of the sale of liquor in the District of Columbia would probably measure a cord, or a cord and a half, if stacked up appropriately.

There is one fact about Washington that should be noted—there is no other city in the country which is so widely, so thoroughly advertised and commented upon. Here are 200 newspaper correspondents watching everything, commenting upon everything; and Washington is more closely watched in a newspaper way than any other city of the country. There is no city in which the laws are more strictly observed; and the police court reports will bear out the statement that there is no better regulated city than this.

On account of the general publicity given to every little occurrence out of the ordinary line, and the exaggeration of events through partisan correspondents, an idea obtains in some quarters that this is a very bad city, and that there is a great deal of wrongdoing. At the same time it is true that our local government is as good as that of any other city, and in no other city are the laws better enforced or better observed. The only people who break the laws are people who are sent here by constituencies in districts remote from the capital of the nation.

Recently a long petition came in from citizens of Cincinnati praying for total prohibition in the District of Columbia. This petition came from a town in which Sunday is celebrated as a holiday, with all the theaters open, a matinee performance given in the afternoon, evening performances, baseball games, and so on. This seems to come with poor grace to a city in which Sunday is observed more religiously than it is anywhere else. Sunday here is a day of absolute quiet and rest. Not a public resort of any description is open to the people on a Sunday, except the churches and the hotels.

Another peculiar phase of the interest felt by the nation at large in the welfare of the District of Columbia is shown in the piles of petitions that come in from various parts of the country, especially New York and New Jersey, praying for the enactment of some laws "to protect young women in the District of Columbia." Now, if

CONGRESSIONAL POKER GAME.

there is any place in the world where young women do not need additional protection it is in the city of Washington; and the petitioners from New York, Boston, Philadelphia, Chicago, Cincinnati, St. Louis, San Francisco, New Orleans and other great cities of the country would do well to confine their missionary work to their own cities. There are many thousands of women in the employment of the government in this city. This condition has endured for years; and out of it not a dozen scandals have ever grown. There is nothing in the history of the policy of employing women in the government departments that does not redound to the credit of American women.

There are very few people living in Christian countries to-day who obey the injunction of the Founder of their religion to "Judge not, that ye be not judged." That is the reason that good, well-meaning people, who regard them-

selves as approximating perfection, take such an interest in making their neighbors behave themselves. They overlook John, the drunkard, in their own community. They overlook Mary the Magdalene in their own village. They are so self-satisfied with their own lives, and with the workings of their churches and societies, that they want to reach out and evangelize the other poor fellows who are not so righteous as themselves. Consequently they want to reform the national capital.

In one of our churches recently a man from an Illinois farm, who was visiting relatives here, addressed a prayer meeting, and expressed the hope that "all of the members of this church are really followers of the Founder of our religion." He had

FILING AWAY PETITIONS.

scarcely taken his seat when a good brother arose and said: "Criticism of the church is small business. The church is all right; at any rate, this church is all right."

The Illinois farmer listened to the tirade which was so unexpectedly hurled at him, and then arose, saying: "It is well for me that I came here tonight. I never before supposed that there was a perfect church, composed of perfect men and women. Out west, where I live, all men and women acknowledge that they are imperfect, and they are praying for salvation. I will go back home and tell the old folks that there is a church community in Washington which is absolutely perfect, and without sin."

There was no reply to that innocent sarcasm. But such things should not occur in alleged Christian communities. There is neither reason nor excuse for any community to boast of its perfection, nor its approximation unto perfection. The churches in this city are no better than the churches in other cities, towns and villages. And, likewise, the churches and societies in the various cities and communities of this republic are not perfect. They have neither right nor reason to suppose that the national capital is a hotbed of corruption; and that it needs the guardianship of the reformers of innumerable communities, who might better be engaged in casting the beams out of their own eyes, before they look for the mote in the eyes of our people here in this ten-miles-square, which is the home of the federal government.

When the congress is not in session, particularly, this is a model city. The people who are so anxious to regulate the morals of the army posts and the spiritual development of this city might well employ their time and talents in selecting model men to represent them in the national house of representatives. It is when the congress is in session that the hotels make their "big money," as they call it, by their all-night poker games with liberal sales of champagne and cigars; all of the most costly brands. It is when the congress is in session that the "strange woman" described in Holy Writ infests this city. It is when the congress is in session that the national capital needs the guardianship of the moral elements of the nation. Therefore, let the people who want to make this a perfect city quit sending here as their representatives men who worship themselves, instead of worshipping their Creator; who worship their appetites and passions, well knowing that they are safely screened by newspaper men of small caliber, to whom they offer small official favors.

This is plain talk, of course; and it is all true. But you must not imagine that the people send nothing but sporting men to the national house of representatives. Quite the contrary. There are 357 members of that body. Fully 300 of them are reputable and worthy citizens. But the people who want this to be a model city usually elect 50 or more common scoundrels every two years, and they leave the whole lump with impurity and disrepute. So don't allow yourselves to imagine that this community needs a national guardianship. It doesn't. It is one of the best governed cities in the world. It is a credit to the republic, and to every citizen of the republic. Petitions for the betterment of the city are valueless. Let the people send only proper representatives to congress, and the national capital will be nil right.

Seriously Bitten by a Shad.
William Duncan, aged 26 years, a Delaware river fisherman, was bitten by a shad and is now in the Delaware hospital at Wilmington, Del., suffering severely. While hauling in his net ten days ago one of the fish, which was particularly vicious, seized his hand in its mouth and inflicted a painful injury. The fish had fine teeth, which cut the flesh. The wound was regarded as trivial, but in a few days the hand began to swell. Now it is inflamed and swollen much larger than the usual size, and serious results are feared. The injury is infected with a poisonous matter and the outcome may be blood poisoning.

NEWS OF THE COUNTY.

NEW SALEM.

Mesdames Martha Brouster and Felix Tyner and babe, T. A. Harpending and Miss Blake Harpending were all on the sick list last week.

The dronth is just simply fearful. Corn, tobacco, gardens, and in fact everything growing out of the ground is ruined. The simple facts in the case are fearful to contemplate. So many farmers failed to sow wheat last fall, and should the dry spell continue a few days more they will be without bread for their families; their only show then is to try it again. We have so many good farmers who depend entirely on a tobacco crop for their money who will be left in a fix, and our stock men, who have small herds of cattle, with nothing to take them through the winter on, when looked at rightly it becomes a serious matter to the poor farmer, while our town brothers are not left out; for with the failing of the farmer so goes it with the town man. It is quite serious, so it is.

Born to the wife of James Mahan, on the 5th, a fine daughter. Jim is as happy as a great big sun flower.

Who can beat this; on Thursday night last Dave Woodford hauled from the town of Marion to Salem 5,800 pounds, with four horses; now let some of the big teamsters beat Dave if they can.

The wheat is about all threshed and the yield on most farms was the best in years, while the grade was up to the standard, all the crops grading from 50 up; well, it will be needed.

The blackberry crop is among the things of the past; the sun and hot winds spoiled one of the finest prospects for a berry crop we have had in years.

Jesse B. Stevenson, of Frances was the guest of relatives in this section Saturday.

Bro. Oakley came over to his appointment second Saturday; he will commence a protracted meeting at New Salem July 22d, at 8 o'clock.

We have had some more land trading; Rev E. M. Eaton has sold or exchanged his farm near New Salem church to William Lowery for land near Greens Ferry, on the Cumberland river. We lose a good man and a good neighbor in Bro. Eaton, while Mr. Lowrey is a most excellent gentleman.

The farmers will soon have a leisure time, at least while the dronth lasts; well, it is too hot to work in the sun these days.

Tom Travis and Robt Montgomery of Emmaus, were with us last week.

The mining interest is on the drop these awful hot days.

Bunk Baker's child, which has been very sick, we are glad to say is nearly well.

Mrs. Samuel Woodford spent a part of last week with her daughter, Mrs. Mattie Franklin, of Salem.

Tyner and son has commenced cutting lumber at their mill.

Tom Harpending lacked a fraction of threshing 19 bushels of wheat to the acre his entire crop through.

Joe Haynes came up and assisted his old friend, Archie Crosson, through his entire wheat threshing.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors but to no avail. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was entirely cured." One trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c at Orme's

SHERIDAN.

Corn, gardens, ponds, pastures are drying up.

E. P. Baker, Dr. Coyle's agent, was through this section settling up old accounts.

Doe Stallions' seven years old girl was buried at Deer creek last week.

Wheat is selling here at 45 cts. a bushel.

Dr Threlkeld was called to see Mr. Sullenger Sunday. No improvement in his condition.

B. F. Fenwick was here today adjusting a claim for B. Kisse. Ben insures everything. Lightning killed a horse for Ben and he promptly adjusted the claim.

E. F. Sullenger secured a load of Scott's emulsion and sulphur water Saturday to cure him of the nocturnal visions he has had recently. The trouble is Ebb wants to be chaperoned out of single existence into the matrimonial abyss and he has been kindly solicited—he even goes to Hebron—well, if he recuperates we will inform you soon.

Through the urbane hospitality of D E Gilliland and wife, Messrs Smith & Hamilton, at Mr. Gilliland's Saturday night will entertain the young people of this and adjoining communities to a moon light ice cream. The popular string band, known as the Moyers & Gray band will be there. Candy, oranges, "taffy" of all kinds will be there. A present of value will be given to the prettiest girl, and a plug of tobacco to the ngliest boy. After that, recitations will be heard. Remember three guards have been appointed to see your horse is not turned loose or any deviant done of any kind to mar the pleasure of any one; you will miss a great treat if you don't come.

Don't take a peck of any kind of pills to cure a pint of disease, when a dose of Morley's Little Liver Pills, for Bilious People, will cure you while you sleep. One a dose. Sold by J. H. Orme.

BLOWS FACTORY.

Mrs Mary Riggs is assisting her mother, Mrs. Guess.

The ice cream supper at R. W. Vanhooser's Saturday night was largely attended.

Ernest Lamb of Shady Grove, attended church at Blackburn Sunday.

McConnell and McConnell are threshing wheat in our community.

E. J. and D. A. McConnell visited Mrs. Susie Casner Sunday.

John Walker and Jim Skelton started for Pensacola, Florida Sunday.

Wesley Skelton says he has got tired of being a country jake and has gone to town to live.

It Dazzles the World.

No discovery in medicine ever created one quarter the excitement that has been caused by Dr King's New Discovery for Consumption. Its severest tests have been made on hopeless cases of Consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness, and whooping cough it is the quickest, surest cure in the world. It is sold by J. H. Orme, who guarantees satisfaction or refund money. Large bottles 50c. and \$1. Trial bottles free.

Farm for Sale.

A farm of 105 acres, fine land, in good state of cultivation; good house and outbuildings; 12 miles from Marion on Annora and Dy-cusburg road, 4 miles from Fredonia, 5 from Dyousburg. Will sell reasonably or exchange for property in Marion.

Long Hair

"About a year ago my hair was coming out very fast, so I bought a bottle of Ayer's Hair Vigor. It stopped the falling and made my hair grow very rapidly, until now it is 45 inches in length."—Mrs. A. Boydston, Ashland, Kans.

There's another hunger than that of the stomach. Hungry hair needs food, needs hair vigor—Ayer's. This is why we say that Ayer's Hair Vigor always restores color, and makes the hair grow long and heavy. \$1.00 a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address: J. C. AYER CO., Lowell, Mass.

SHADY GROVE.

The farmers are needing rain in our section.

A shower visited this section on Sunday evening.

Graveyard cleaning next Saturday, and also services.

Bud Easley was thrown by a mule Saturday evening and his ankle gave him some trouble as a result.

Quite a crowd of young folks went to Blackford Sunday.

Every one is saving their hay or threshing wheat.

Harry Parker left here Sunday and has not yet returned.

The crowd that started to Crittenden Springs Sunday ended up at Blackford.

It is the talk that a barbecue will be with us Saturday next.

Moore & Langley will probably finish prizing their strips this week.

Julian Ainsworth, of Marion, was in town Monday.

We have two ice dealers and it is cheaper.

Death claims another one of our friends. Mrs F. L. Atwood, wife of Bro. F. L. Atwood, died at her home near here, Thursday last, of consumption. She was buried at this place Friday evening, at two o'clock.

She was a christian lady and had many friends who regret her death. A large crowd followed her to the last resting place, to pay this last tribute of respect to her remains and to the bereaved family. It was a sad affair, and while a mystery to us, God knows best.

And its sin that can now never touch her,
Or tarnish her soul pure and white,
For her has dawned the glad morning,
That never wanes into the night.
Oh, hearts that are empty and aching,
For the dear one under the sod,
Hold fast to these sweet words of comfort,
"Of such is the Kingdom of God!"

The Commissioner will offer for sale lots numbers 5 and 6, as above described, separately, and then he will offer said two lots for sale as a whole, and will accept the bid which in the aggregate produces the most money.

IRON HILL.

Dry weather prevails extensively. J. N. Roberts went to Providence Sunday.

Peter Lamb says he would be glad if the young man that borrowed his saddle a few days ago would return it.

Mrs Lucy Bentley, wife of D. E. Bentley, died in Illinois a few days ago, after a lingering illness. She was the daughter of W. H. Mo-Chesney, born and reared in this neighborhood. She is the fourth member of the family to die in the last sixteen months.

The third Saturday in July is the day set apart to clean off the Shady Grove cemetery. So come out and help.

John Thompson and wife, of Hood's school house, visited here Sunday.

Dowie and Willie Sutton visited here Sunday.

Joe Vinson was the guest of Jno Roberts Sunday.

Rufus Riley visited his sister, Mrs Kemper, Sunday.

STARR.

Hot, hotter, hottest. Nothing said about the camp meeting yet.

Misses Nora Butler and Lizzie Bibb of Mexico were visiting their friends in this section recently.

John Waddell and family of Le-vins, visited here Sunday.

Ed Paris made a business trip to Princeton Thursday.

Mrs Andrews changed her mind and went to Hendersonville, N. C. instead of Colorado.

Timber business is quite an item in this community.

Prof J B Hunt attended the examination two days.

Prof Hunt will teach at Belmont. Miss Lizzie Gardner at Lone Star. J. B. McNeeley at Starr, E. E. Thurmond at Midway. James F. Paris at Pleasant Hill. R. S. Paris at Hood's school house.

Mrs. Frank Conger and L. H. Paris are spending several days at Dawson Springs.

Wheat threshing is in full blast and wheat is fine.

Miss Fona Crayne, of Crayneville, is attending Sunday School at Piney creek.

Ed Murry of Blackburn was buried at Piney recently.

Mrs Lou McCormick died the 10th and was buried next day.

News has been received here by letter stating that Rev E. S. Bentley's wife died in Trigg county on the 4th.

Quarterly Meetings.
